

## Plain/Technical English Trainer

### **Give your career wings!**

Aviato Academy aims to become the largest knowledge platform within the airport's aviation industry. We believe in a bright and sustainable future, enhancing the quality, safety, and security of airport operations. Do you want to help shape the airport of tomorrow?

### **Your destination**

To strengthen our team, we are looking for a Plain/Technical English Trainer (M/F/X). Teaching Plain/Technical English to enhance understanding of daily operational processes involves imparting necessary operational and/or technical English knowledge, enabling non-native employees in their work environment and/or on the work floor to comprehend basic work instructions. The ultimate goal is to elevate overall language proficiency in the workplace. Plain/Technical English covers the language and skills required for successful communication in all operational and/or technical specializations.

### **Your flight instructions**

- You provide Technical English courses for non-native profiles, specifically technicians and MRO (Maintenance, Repair, and Overhaul) employees, and/or Plain English courses for non-native profiles, particularly for operational airport personnel.
- You help improve language competencies across technical, situational, and/or operation-specific skills necessary to enhance workplace safety.
- You employ an intensive sector-focused approach.
- You enhance general language skills needed for increased workplace safety.
- You evaluate employees at scheduled intervals and report results to them and Aviato Academy.
- You document structured findings on individual and collective competencies and areas for improvement.
- You manage training administration, process findings, and report conclusions and improvement suggestions.
- You make recommendations for using a varied mix of theoretical and practical exercises, supported by a structured and pedagogical approach.
- You regularly evaluate Aviato Academy's training materials through reports and improvement proposals.
- You pursue ongoing professional development to attain and maintain required qualifications as a language trainer.

### **Your passport**

- You have a bachelor's degree, preferably with a technical background.
- You have an excellent command of English and a good proficiency in Dutch and French.
- You have experience in training/teaching personnel.
- You have experience administering standardized tests.
- You have knowledge of Human Factors to enhance performance optimization at work regarding safety, well-being, and efficiency.

- You employ a structured, pedagogical approach.
- You are flexible and mobile to provide training at various locations.

**The check-in**

Send your CV and cover letter via email to [info@aviatoacademy.com](mailto:info@aviatoacademy.com). And who knows, we might welcome you on board very soon.
